Article 10. Exceptional Trees.

Section 14-56. Intent.
In accordance with section 58-2, Hawai‘i Revised Statutes, to safeguard exceptional trees from destruction due to land development, the County desires to enact protective regulations to preserve exceptional trees within the County.
(1984, ord 84-22, sec 1.)

Section 14-57. Definitions.
For purposes of this article, “exceptional trees” means a tree or grove of trees with historic or cultural value, or which by reason of its age, rarity, location, size, aesthetic quality, or endemic status has been designated by the council as worthy of preservation. The term exceptional trees does not apply to trees planted for commercial forestry operations. Exceptional trees may be designated generally by biotaxy or individually by location or class.
(1984, ord 84-22, sec 1.)

Section 14-58. Arborist advisory committee.
There shall be an arborist advisory committee consisting of six members who shall be appointed by the mayor. The committee shall include the following: the planning director, or the director’s designee; one member who shall be actively employed in the practice of landscape architecture; and four other members selected on the basis of active participation in programs of community beautification, or research or organization in the ecological sciences, including ethnobotany, or Hawaiiana.
(1984, ord 84-22, sec 1; am 1992, ord 92-12, sec 1.)

The arborist advisory committee shall have the following powers and duties:
(a) To research, prepare and recommend to the council exceptional trees to be protected by County ordinance or regulation.
(b) To advise property owners relative to the preservation and enhancement of exceptional trees.
(c) To recommend to the council appropriate protective ordinance, regulations and procedures.
(d) To review all actions deemed by the council to endanger exceptional trees.
(1984, ord 84-22, sec 1.)
Section 14-60. Procedures.
(a) Any interested person may petition the arborist advisory committee to examine a tree for designation as an exceptional tree. Upon completion of the committee’s study which shall include notification of the owner or lessee of the property, and a duly held public hearing, the committee shall forward the proposed list of exceptional trees to the council.
(b) The council shall review the proposed list of exceptional trees; it may affirm, modify, or disaffirm the proposed list of exceptional trees. The list shall be adopted by ordinance.
(c) The arborist advisory committee shall prepare official maps designating the location of exceptional trees adopted by the council and shall file maps with the planning department, department of public works, building division, and office of the County clerk.
(1984, ord 84-22, sec 1.)

Section 14-61. Consultation with County arborist advisory committee.
Prior to the issuance of any building or grading permit or granting of final subdivision approval, the planning department and department of public works, building division, may request advice from the arborist advisory committee concerning trees within any proposed development to assure that exceptional trees are retained and to prevent the unnecessary destruction of such trees during development or redevelopment of land within the County. The lack of designation as exceptional tree does not diminish the responsibility and authority of the planning department and department of public works, building division, to recommend trees to be incorporated into a development plan.
(1984, ord 84-22, sec 1.)

Section 14-62. Enforcing authority.
The planning department shall be charged with the enforcement of this article and shall have the police power to take appropriate action to ensure compliance with the provisions of this article. (1984, ord 84-22, sec 1; am 2004, ord 04-69, sec 1.)

Section 14-64. Injunctive relief.
Proceedings for injunctive relief in circuit court or other court of competent jurisdiction may be had for threatened violations of the provisions of this article.
(1984, ord 84-22, sec 1.)

Article 14. Street Addressing And Naming.

Section 14-79. Purpose and applicability.
(a) The establishment of a uniform and systematic procedure for the assignment of addresses is vital for the health, safety and welfare of the community to provide an effective means of emergency location through the E911 system; expedite postal, utility service, and commercial delivery services; and reduce confusion for people trying to find a residence or business.
(b) An address shall be assigned to all buildings, as defined in this article, and units within buildings which will be occupied for work or residence uses.
(c) All streets shall be named, whether public or private, in accordance with this article.
(d) No application for a building permit or subdivision shall be approved that does not conform to the requirements in this article.
(2004, ord 04-82, sec 2.)

Section 14-80. Definitions.
(a) “Address” shall mean that combination of street name, building number, and when necessary, a unit number that is assigned to a parcel, building, or unit within a building, and is unique to it, to indicate its location.
(b) “Building” shall mean any structure that is designed for human occupation for working or living purposes. Structures which provide accessory uses to a business or residence, such as accessory storage, animal shelters, barns, housing of mechanical or scientific equipment, power generation, greenhouses, or other accessory uses located on the same parcel of land are not required to have an address.
(c) “Director” means the planning director or designated representative.
(d) “Private street” shall mean any street which is not under the control or ownership of any governmental agency.

(e) “Street” means a vehicular way providing access to three or more lots or units, or with the potential to serve three or more lots or units; a vehicular way that is not a street shall be considered a driveway. The address for a building along a driveway shall use the name of the street which the driveway intersects.

(2004, ord 04-82, sec 2.)

Section 14-81. Administration.

(a) The director shall assign street names and building numbers within the County of Hawai‘i pursuant to this article.

(b) The director shall maintain official maps and databases of street names and addresses in a system that enables efficient searches or listing by property owner, address, and tax map key.

(c) The director may grant reasonable exceptions to the requirements in this article upon consultation as appropriate with the director of public works, fire chief, and/or police chief to accommodate existing conditions or unusual street or land use patterns.

(d) The director may adopt rules to implement this article.

(2004, ord 04-82, sec 2.)

Division 2. Address Numbers.

Section 14-82. Procedures for assigning and changing addresses.

(a) Assignment of new address. The director is authorized to assign an appropriate number to each building upon application for a building permit or upon request by the property owner, lessee, tenant, renter or government agency. If circumstances indicate a reasonable need for consultation and consent by the property owner to any new or change of address application by a nonowner, the director may require such consultation and consent before issuing a new or change of address.

(1) For existing buildings without an address, the following information shall be provided to the director when applying for an address:

   (A) Tax map key number of the property.

   (B) Name of the property owner, and name of the applicant (if not the owner).

   (C) Plot plan of the parcel showing all driveways and buildings.

   (D) The director may request additional information as needed to determine the assignment of the correct number.

(2) Prior to the assignment of an address, the street that is to be part of the address shall have an official name. If the street does not have an official name, the applicant shall work with the planning department to name the street in accordance with the procedures and requirements set forth in Street Names, division 3 of the article.
Provided the street has an official name, within fourteen calendar days of the filing of the application with the director, the director shall assign a building number and notify the applicant in writing of the assigned building number and any special requirements as to posting location, number size or other requirements.

For new buildings, the director will assign building numbers as part of the building permit process. If the location of the driveway to the property should change after the issuance of the building permit, the applicant or the applicant’s builder must notify the planning department prior to occupancy to determine whether a change in the building number is necessary.

Changing an address.

The director may change an address when it is out of sequence, does not conform to the numbering standards established in this article, is confusing, or might delay emergency response. If an address is changed, the director must notify the owner in writing at least thirty days before the effective date.

A property owner may apply for an address change for personal reasons by submitting an application for number change and paying a fee of $50. The director may deny the application if the proposed address does not meet the requirements of this article.

Section 14-83. Address numbering standards.

(a) Numbering convention. Building numbers shall consist of whole numbers (no fractions) and shall be assigned based on an equal interval system. Under this system, the address is derived by measuring the distance along a street and dividing that distance by some equal interval to determine the address for a building. The number assigned shall be the numbered interval closest to the driveway or front entrance. The interval unit shall be small enough to provide an address to each potential building permitted in the zoning district. The director shall determine the appropriate interval unit for urban and rural areas.

(b) Point of origin; odd and even numbering. For numbers assigned after August 14, 2004, numbers shall increase from the point of origin with even numbers on the right-hand side. In determining the point of origin, the director may consider any of the following: the existing pattern of surrounding streets; numbering pattern relative to mauka/makai directions; entrance to a cul-de-sac; and/or numbering pattern relative to east/west or north/south direction of the street.

(c) Prefixes and suffixes. On parcels with multiple buildings, or in situations approved by the director, the assigned number may be followed by an alphabet letter to distinguish each building or units within a building. The director may add a prefix to any number, such as the tax map key zone.
(d) Corner lots. The address for corner lots shall be the street where the main driveway intersects or where the main entry faces. If there is no driveway or the structure does not directly face either street, the number should be determined based on the predominate street frontage.

(2004, ord 04-82, sec 2.)

Section 14-84. Display of address numbers.

(a) Display requirement.

(1) Each property owner shall post building numbers in accordance with the provisions of this article.

(2) During construction of new buildings, assigned address numbers shall be posted temporarily at the driveway location to facilitate inspections and assist emergency responders prior to occupancy.

(3) Upon written notice from the director that a posted number is erroneous or changed, the property owner shall remove or erase any wrong building number and shall post the correct building numbers in compliance with this article.

(4) All buildings required to be numbered shall be numbered at the expense of the owner.

(5) The property owner shall be responsible to maintain all posted numbers such that they are visible and readable at all times.

(b) Display standards.

(1) Single-family residences.

(A) For parcels with single mailboxes, numbers shall be posted on the mailbox to be visible from either direction. Where the entrance of a residence is more than fifty feet from the street travelway edge or when the residence is not clearly visible from the street, a second set of numbers shall be placed on, above, or at the side of the main entrance to the building.

(B) In areas without mailboxes, or when multiple mailboxes are located in one location, numbers shall be placed on a post, fence, wall, or some structure within the property line near the intersection of the driveway and the street so that the number is distinguishable and legible from the street. Where the main entrance of the building is clearly visible and within fifty feet of the street travelway edge, the address may instead be conspicuously placed on, above, or at the side of the main entrance so that the number is distinguishable and legible from the street. Where the entrance of a residence is more than fifty feet from the street travelway edge or when the residence is not clearly visible from the street, a second set of numbers shall be placed on, above, or at the side of the main entrance to the building.
(C) When owners share a common driveway, a sign not exceeding two square feet in area and showing the range of addresses shall be attached to a permanent structure or post with the top of the sign not exceeding six feet in height, and located within the property line near the intersection of the driveway and the street. Each building along the driveway shall be numbered in accordance with this article.

(D) Address numbers for residences shall be Arabic numerals not less than three inches in height and shall be made of a durable and clearly visible material or paint (preferably reflective) in a color distinguishable from its background.

(2) Duplexes, apartments, townhouses, shopping centers.
   (A) Duplexes, apartments, townhouses, shopping centers, or other similar groupings where only one number is assigned shall display such number at the main driveway from the street.
   (B) Numbers for individual units or establishments within the complex shall be displayed on, above, or to the side of the main doorway of each unit or establishment.
   (C) Address numbers, including unit numbers, shall be Arabic numerals not less than three inches in height and shall be made of a durable and clearly visible material or paint (preferably reflective) in a color distinguishable from its background.

(3) Commercial and industrial buildings.
   (A) For buildings within fifty feet of the street, the number may be displayed over the main entrance to the structure or at the driveway entrance upon a wall, ground, or marquee sign. For buildings located more than fifty feet from the street, the number shall be displayed at the driveway entrance. If there are more than one building on the property, the address shall also be displayed over the main entrance to each building.
   (B) Address numbers for commercial and industrial buildings shall be Arabic numerals not less than four inches in height and shall be made of a durable and clearly visible material or paint (preferably reflective) in a color distinguishable from its background.
   (C) To avoid confusion, there shall be no other wording or numbers within two feet of the address number.

(4) Directories.
   For multiple-address developments, the director may require a directory board with a map to be posted at the driveway entrance and/or main entrance walkway. Directories must clearly show the location of all addresses that can be reached via that driveway or walkway. Directories must be easily seen from the street or sidewalk, as appropriate, but placed so that a vehicle or pedestrian pausing to read them can be out of the street and not block the sidewalk or driveway. Additional interior directories may be required where necessary to locate an address.
§ 14-84    HAWAI’I COUNTY CODE

(c) The director shall have final approval authority over any aspect of building numbering reasonably related to the legibility, durability and location of the building numbering, and the building owner shall comply with all lawful orders of the director regarding such matters.
(2004, ord 04-82, sec 2.)

Division 3. Street Names.

Section 14-85. Procedures for naming and renaming streets.
(a) New streets. Streets to be created by land division, whether public or private, serving or with the potential to serve three or more lots or units shall be named by the subdivider and approved by the director during the review and approval of the subdivision.
(b) Naming or renaming existing streets. The County council, director, street owner, or property owner along the street may initiate the naming or renaming of an existing street. When naming or renaming is initiated by the street owner or property owner, the petition must be signed by owners representing at least two-thirds of the parcels, dwelling units or businesses located along the affected street or portion of the street. When initiated by the County council, the council may direct the director by resolution. The director will name or rename a street in accordance with the criteria set forth in this article.
(c) Notification. After a street is named, the director must notify all appropriate public agencies and the property owners along the affected street.
(2004, ord 04-82, sec 2.)

Section 14-86. Street name criteria.
Street names shall meet the following criteria:
(a) No duplication. To eliminate potential confusion, duplication of street names within the same judicial district or zip code zone shall not be permitted. Streets with the same name but different street type designations shall be considered duplicate street names. Exception: This provision shall not apply to any street named “Maile” in the Leilani Estates subdivision in Puna.
(b) Continuity. Streets continuing through an intersection or are segments of a planned alignment shall keep the same name.
(c) Directionals. The director may add directional indicators, such as north and west, to street name proposals as deemed appropriate.
(d) Other Criteria. The director may specify other street naming criteria in rules.
(2004, ord 04-82, sec 2; am 2016, ord 16-114, sec 2.)
Section 14-87. Street name signs.
(a) Requirement. Every intersection must have signs naming all the intersecting streets.
(b) Standards. The design and installation of street name signs, whether public or private street, must meet the minimum standards of the department of public works.
(c) Responsibility. For new streets created by land division, the subdivider shall be responsible to provide and install the street name signs prior to final subdivision approval. For existing public streets, the State or County as appropriate shall install and maintain the street name signs. For private streets, the street owner is responsible to install and maintain the street name signs. At the request of the majority of the owners of a private street, and upon receipt of a fee sufficient to cover the cost of materials and labor as determined by the County, the County may fabricate, erect, and thereafter maintain the street name signs.
(2004, ord 04-82, sec 2.)

Division 4. Violations.

Section 14-88. Enforcement of numbering or street name requirements.
(a) Notice and order. Whenever there is reason to believe there has been a violation of the requirements of this article, the director shall give notice to the owner to comply and order corrective action within thirty days from the date of notification. Such notice and order shall be sent via certified mail, with return receipt requested, to the owner. The date shown on the return receipt shall be the date from which the thirty-day period shall commence for compliance.
(b) Appeal. Any person adversely affected by any order issued under this section, may within thirty days after the service of the order, appeal the order to the board of appeals as provided by section 6-9.2, County Charter. An appeal to the board of appeals shall stay the provisions of the director’s order pending the final decision of the board of appeals.
(c) Penalty. If the owner fails to comply within the thirty-day period, the owner will be subject to a fine of $25, and a further penalty of a like sum for every thirty days thereafter that such person shall neglect or refuse to correct the violation. The director may institute a civil action in any court of competent jurisdiction for the enforcement of any order issued pursuant to this section. Where the civil action has been instituted to enforce the civil fine imposed by said order, and provided that administrative appeals have been exhausted or the time for filing such appeals has elapsed without appeal, the director need only show that the notice of violation and order were served, that a civil fine was imposed, the amount of the civil fine imposed and that the fine imposed has not been paid.
(2004, ord 04-82, sec 2; am 2011, ord 11-103, sec 6.)
Section 14-89. Enforcement of street name sign or address tampering or defacement.

(a) Violation. Except for repair, replacement, or relocation within twenty-four hours, no person may alter, deface, or remove any address number or street sign.

(b) Criminal prosecution.

(1) Any person violating or causing or permitting the violation in the preceding paragraph, shall be guilty of a violation, and upon conviction thereof shall be sentenced as follows:

   (A) For a first offense, by a fine not exceeding $500.

   (B) For a subsequent conviction which occurs within five years of any prior conviction for violation of this chapter, by a fine of not less than $500 but not exceeding $1,000.

(2) After a conviction for a first violation under this chapter, each further day of violation shall constitute a separate offense if the violation is a continuance of the subject of the first conviction.

(3) The imposition of a fine under this section shall be controlled by the provisions of the Hawai'i Penal Code relating to fines, sections 706-641 through 706-645, Hawai'i Revised Statutes.

(2004, ord 04-82, sec 2.)

(2008, ord 08-154, sec 1.)

Section 14-91. Definitions.

As used in this article, unless the context clearly requires otherwise:

“Genetic engineering” means a process or technology employed whereby the hereditary apparatus of a living cell is altered, modified, or changed so that the cell can produce more or different chemicals or perform completely new functions.

“Person” includes natural persons, partnerships, joint ventures, societies, associations, clubs, trustees, trusts, or corporations or any officer, agent, employee, factor, or any other personal representative thereof, in any capacity, acting either for himself or for any other person, under personal appointment or pursuant to law.

“Recombinant DNA” means the transfer of genes, regulatory sequences, or nucleic acid between hosts by the use of vectors or laboratory manipulations and includes the insertion, excision, duplication, inactivation, or relocation of specific genes, regulatory sequences, or sections of nucleic acid. This term does not apply to a material or an organism developed exclusively through traditional methods of breeding, hybridization, or nondirected mutagenesis.
“Release” means a discharge, emission or liberation of any genetically engineered organisms, or the product of a genetically engineered organism, into the open environment.  
(2008, ord 08-154, sec 1.)

Section 14-92. Genetically engineered (transgenic) taro (kalo), unlawful.  
It shall be unlawful for any person to test, propagate, cultivate, raise, plant, grow, introduce or release genetically engineered (transgenic) or recombinant DNA taro (kalo).  
(2008, ord 08-154, sec 1.)

Article 16. Lowest Law Enforcement Priority of Cannabis Ordinance.*

* Editor’s Note: Article 16 was invalidated by Ruggles v. Yagong, 353 P.3d 953 (Haw. 2015), cert. denied, 577 U.S. --- (2015).

Section 14-96. Purpose.  
The purpose of this article is to:  
(1) Provide law enforcement more time and resources to focus on serious crimes;  
(2) Allow our court systems to run more efficiently;  
(3) Create space in our prisons to hold serious criminals;  
(4) Save taxpayers money and provide more funding for necessities such as education and health care; and  
(5) Reduce the fear of prosecution and the stigma of criminality from non-violent citizens who harmlessly cultivate and/or use cannabis for personal, medicinal, religious, and recreational purposes.  
(2008, ord 08-181, sec 2.)
Section 14-97. Findings.
(a) The Institute of Medicine has found that cannabis (marijuana) has medicinal value and is not a gateway drug.
(b) According to the U.S. Centers for Disease Control, the use of cannabis (marijuana) directly results in zero deaths per year.
(c) According to the National Institute of Drug Abuse (NIDA), the marijuana eradication program has not stopped cannabis cultivation in the county, rather the program has only decreased the availability of the plant, which increases its “street” value, resulting in more crime.
(d) The National Institute of Drug Abuse (NIDA) also reported that a large increase of the use of methamphetamine, crack cocaine, and other hard drugs was related to the marijuana eradication program’s implementation.
(e) According to public record, the ‘mandatory program review’ for the marijuana eradication program, required by section 3-16 of the County Charter to be performed at least once every four years, has never been performed in the thirty years that the program has existed.
(f) Law abiding adults are being arrested and imprisoned for nonviolent cannabis offenses, clogging our court dockets, overcrowding our prisons, tying up valuable law enforcement resources and costing taxpayers hundreds of thousands of dollars in Hawai‘i County alone each year.
(g) The citizens of the Cities of Hailey, Idaho; Denver, Colorado; Seattle, Washington; Columbia, Missouri; Eureka Springs, Arkansas and Santa Barbara, Oakland, Santa Monica and Santa Cruz, in California, and the citizens of Missoula County, Montana, all voted for cannabis (marijuana) to be placed as law enforcement’s lowest priority within the past five years.

The Lowest Law Enforcement Priority regarding possession or cultivation of cannabis shall apply to any single case involving twenty four or fewer cannabis plants at any stage of maturity or the equivalent in dried cannabis, where the cannabis was intended for adult personal use.

The “dried equivalent” of twenty four or fewer cannabis plants shall be presumed to be twenty four or fewer ounces of usable cannabis, excluding stems and other non active parts. A greater amount may also fall under the Lowest Law Enforcement Priority provisions described herein if such amount is shown by competent evidence to be no more than the dried equivalent of twenty four plants.

(2008, ord 08-181, sec 4.)

Section 14-99. Lowest law enforcement priority policy relating to the adult personal use of cannabis.

(a) The cultivation, possession and use for adult personal use of cannabis shall be the Lowest Law Enforcement Priority for law enforcement agencies in the county.

(b) The council, the police commissioner, the chief of police and all associated law enforcement staff, deputies, officers and any attorney prosecuting on behalf of the county shall make law enforcement activity relating to cannabis offenses, where the cannabis was intended for adult personal use, their Lowest Law Enforcement Priority. Law enforcement activities relating to cannabis offenses include but are not limited to the prosecution of cannabis offenses involving only the adult personal use of cannabis.

(c) Neither the chief of police, the police commissioner, nor any attorney prosecuting on behalf of the county, nor any associated law enforcement staff, deputies, nor officers shall seek, accept or renew any formal or informal deputation or commissioning by a federal law enforcement agency for the purpose of investigating, citing, or arresting adults, nor for searching or seizing property from adults for cannabis offenses subject to the Lowest Law Enforcement Priority of cannabis where such activities would be in violation of that policy, nor shall such authorities exercise such powers that may be ancillary to deputation or commissioning for another purpose.

(d) The council shall not authorize the acceptance or the issuing of any funding that is intended be used to investigate, cite, arrest, prosecute, search or seize property from adults for cannabis offenses in a manner inconsistent with the county’s Lowest Law Enforcement Priority policy.

(2008, ord 08-181, sec 5.)
Section 14-100. County prosecuting attorneys.
To the full extent allowed by the Constitution of the State of Hawai‘i, the people, through their county government, request that neither the county prosecuting attorney nor any attorney prosecuting on behalf of the county shall prosecute any violations of the sections of chapter 712-1240 of the Hawai‘i Revised Statutes regarding possession or cultivation of cannabis in a manner inconsistent with the Lowest Law Enforcement Priority, as described in section 14-98 and 14-99 of this article; in cases where the amount possessed or grown is less than twenty four plants or the dried equivalent, possession for adult personal use shall be presumed.
(2008, ord 08-181, sec 6.)

Section 14-101. Expenditure of funds for cannabis enforcement.
(a) Neither the council, nor the police commissioner, nor the chief of police, nor any attorneys prosecuting on behalf of the county, nor any associated law enforcement staff, deputies, or officers shall spend or authorize the expenditure of any public funds for the investigation, arrest, or prosecution of any person, nor for the search or seizure of any property in a manner inconsistent with the Lowest Law Enforcement Priority as defined in section 14-98 and 14-99 of this article.
(b) The council shall not support the acceptance of any funds for the marijuana eradication program.
(2008, ord 08-181, sec 7.)

(1) Provide for procedures to receive grievances from individuals who believe that they were subjected to law enforcement activity contrary to the Lowest Law Enforcement Priority of cannabis, which is described in section 14-98 and 14-99 of this article; and
(2) Publish a report semi-annually on the implementation of this chapter every first day of June and every first day of December, from this day forward, with the first report being issued June 1, 2009. These reports shall include but not be limited to: the number of all arrests, citations, property seizures, and prosecutions for all cannabis offenses in the county, the number of complaints regarding marijuana eradication over-flights; the breakdown of all cannabis arrests and citations by race, age, specific charge, and classification as infraction, misdemeanor, or felony, the estimated time and money spent by the county on law enforcement and punishment for adult cannabis offenses, and any instances of officers or deputies assisting in state or federal enforcement of adult cannabis offenses. These reports shall be published with the cooperation of the county prosecuting attorney, the chief of police, and all associated law enforcement staff in providing needed data.

This letter shall state; “The citizens of the County of Hawai‘i have passed an initiative to make Cannabis offenses the Lowest Law Enforcement Priority, where the Cannabis is intended for adult personal use, and request that the federal and state branches of government remove criminal penalties for the cultivation, possession and use of Cannabis for adult personal use; the citizens also request that Cannabis policies here within the county of Hawai‘i be dealt with from our local law enforcement only.” The letters may also state, be it the will of the county council; that according to the three year study performed by the National Institute on Drug Abuse, more people used methamphetamine as a result of the marijuana eradication program; they may also express that methamphetamine is a growing problem in our community and more help would be appreciated in that area, and that the first action that would help in that area would be to end the marijuana eradication program.
(b) This duty shall be carried out until state and federal laws are changed accordingly. (2008, ord 08-181, sec 9.)

Section 14-104. Statutory and constitutional interpretation.
All provisions in this article shall only be implemented to the full extent that the Constitution of the State of Hawai‘i and the Hawai‘i Revised Statutes allows, and in the event, and only in the event, that a court of competent jurisdiction determines that any provision in any section of this article may not be directed by voter initiative or by action of the council, then that specific mandatory provision only shall be deemed advisory and expression of the will of the people that the provision shall be implemented into law by whichever government branch or official who has the power to implement it, and that the council shall take all actions within their power to work with those branches of government to express the will of the people and encourage, support, and request the implementation of those provisions. (2008, ord 08-181, sec 10.)

The purpose of this article is to protect Hawai'i Island's non-genetically modified agricultural crops and plants from genetically modified organism cross pollination and to preserve Hawai'i Island's unique and vulnerable ecosystem while promoting the cultural heritage of indigenous agricultural practices. The prohibition of open air cultivation, propagation, development, or testing of genetically engineered crops and plants is intended to prevent the transfer and uncontrolled spread of genetically engineered organisms on to private property, public lands, and waterways.

(2013, ord 13-121, sec 3.)
Section 14-129. Definitions.

As used in this article, unless otherwise specified:

“Genetically engineered” means an organism that has been modified at the molecular or cellular level by means that are not possible under natural conditions or processes. Such means include recombinant DNA and RNA techniques, cell fusion, microencapsulation, macroencapsulation gene deletion and doubling, introducing a foreign gene, and changing the position of genes. Such organisms are sometimes referred to as “genetically modified organisms” or “transgenic organisms.” Genetically engineered or genetically modified crops and plants include crops and plants for human consumption or for any other purpose. Genetic engineering does not include modification that consists exclusively of breeding, conjugation, fermentation, hybridization, in vitro fertilization, or tissue culture.

“Open air” means a location or facility that is not enclosed in a greenhouse or in another completely enclosed structure so as to prevent the uncontrolled spread of genetically engineered organisms.

“Person” includes natural persons, partnerships, joint ventures, societies, associations, clubs, trustees, trusts, or corporations or any officer, agent, employee, or any other personal representative thereof, in any capacity, acting either for himself, his heirs, or for any other person under personal appointment pursuant to law.

“Plant pestilence” means a virulent plant disease or infestation that is causing substantial harm to one or more crops or plants.

“Register” or “Registration” means registration by persons engaged in the cultivation, propagation, development, or indoor testing of genetically engineered crops or plants. Registration shall include: the tax map key and the council district of the property or properties; a detailed description of the location on the property where genetically engineered crops or plants are being cultivated, propagated, developed, or tested, which description shall include the size of the location and scope of usage; the name of the owner of the property or properties; the lessee or any other party in control of the genetically engineered plant or crop operation or usage; the type of genetically modified organism or transgenic manipulation used; the produce or products involved; the type, frequency, and customary amount of pesticides, inclusive of herbicides and insecticides, used; a description of any containment procedures employed; and relevant contact information.

(2013, ord 13-121, sec 3.)

Section 14-130. Prohibition.

No person shall knowingly engage in the open air cultivation, propagation, development, or testing of genetically engineered crops or plants.

(2013, ord 13-121, sec 3.)
Section 14-131. Exemptions.
The following persons shall be exempt from the provisions of this article:
(1) Persons engaged in the open air cultivation, propagation, or development of genetically engineered crops or plants, other than genetically engineered papaya, but only in those specific locations where genetically engineered crops or plants have been customarily open air cultivated, propagated, or developed by that person prior to December 5, 2013, provided that those specific locations or facilities are registered on or before March 5, 2014; and
(2) Any person engaged in the open air cultivation, propagation, or development of genetically engineered papaya, whether prior or subsequent to December 5, 2013, provided that each location or facility wherein open air cultivation, propagation, or development of genetically engineered papaya occurs or will occur is registered as provided in this article.
Notwithstanding any other provision of law, these exemptions shall not allow for open air testing of genetically engineered organisms of any kind.
(2013, ord 13-121, sec 3.)

Section 14-132. Emergency exemption.
(a) A person who is engaged in the cultivation, propagation, or development of a non-genetically engineered crop or plant that is being harmed by a plant pestilence as defined in this article may apply to the council for an emergency exemption from the provisions of this article to use a genetically engineered remedy. The council may grant an emergency exemption by way of resolution, provided the council makes an affirmative finding that:
(1) The cited plant pestilence is causing substantial harm to that person’s crop or plant;
(2) There is no other available alternative solution; and
(3) All available measures will be undertaken to insure that non-genetically engineered crops and plants, as well as neighboring properties and any water sources, will be protected from contamination or any other potentially adverse effects that may be caused by the genetically engineered organism or associated pesticides.
(b) Any exemption granted pursuant to subsection (a) shall include reasonable restrictions and conditions, including, but not limited to, full compliance with the registration requirements of this article and that the exemption shall expire on a certain day occurring within five years from the date of its issuance. Prior to expiration of the exemption, the council may adopt a resolution to extend the exemption for a specified period of time.
(2013, ord 13-121, sec 3.)
Section 14-133. Registration.
(a) All persons engaged in any form of cultivation, propagation, development, or indoor testing of genetically engineered crops or plants of any kind shall register annually beginning on or before March 5, 2014, and shall pay an annual registration fee of $100 per location, payable to the director of finance. All contiguous land shall be treated as a single location. The director of the department of research and development, or the director's authorized representative(s), shall administer the registration provision of this section.

(b) All persons engaged in non-commercial cultivation or propagation of genetically engineered papaya, in any stage or form, shall be exempt from this section. This registration exemption does not exempt persons engaged in research, development, or testing of genetically engineered papaya.

(c) Pursuant to section 92F-13 of the Hawai‘i Revised Statutes, information such as the name of the registrant and the exact location of the genetically engineered crops or plants may be withheld from the public to the extent that disclosure of that detailed information would otherwise frustrate the ability of the County to obtain accurate information.

(2013, ord 13-121, sec 3.)

Section 14-134. Penalties.
Any person who violates any provision of this article shall be guilty of a violation, and upon conviction thereof, shall be sentenced to a fine of up to $1,000 for each separate violation. The person shall be deemed to be guilty of a separate offense for each and every day a violation of this article is committed, continued, or permitted for each location. To the extent permitted by law, the person found in violation of this article shall also be responsible for all costs of investigation and testing, as well as for court costs, including but not limited to witness fees and witness expenses.

(2013, ord 13-121, sec 3.)

No additional parking is required for any change of use in a building as long as the previous use of the building had the required number of parking stalls for that use; provided, that additional parking may be required for a change of use in any building where the building is converted from residential to commercial use or from warehouse and manufacturing use to retail or commercial use.

Where uses and activities do not occur simultaneously, parking space requirements may be shared, provided that:

(d) At least sixty-seven percent of the required parking shall be standard-sized parking spaces, and thirty-three percent may be compact spaces.
